OLYMPIC COLLECTION

OLYMPIC is born from the meeting of performance and material, inspired by the spirit of the Milano–Cortina 2026 Winter Olympic Games.

A tribute to the most authentic values of sport: excellence, discipline, determination and the beauty of gesture.

Each item in the collection presented by CTA® interprets a different Olympic discipline, translating its essence into textile language. Speed becomes structure, strength is transformed into material, and light follows the rhythm of movement. Technical and decorative fabrics engage in a dialogue with sophisticated textures, three-dimensional surfaces and carefully developed colour palettes, designed to enhance space, light and atmosphere.

Olympic is a collection conceived to dress interiors with character and precision, where function and aesthetics coexist in perfect balance.

As in sport, every detail matters. Every choice is the result of research, control and a contemporary vision.

BOB

BOB is power, stability and control.

Like the discipline it is named after, it expresses performance through technical rigour and absolute precision. A residential textile blackout, double face in 100% PL, **BOB** is designed to guarantee maximum light blocking, ensuring comfort and privacy in living spaces. The linen-effect backing, with its dense weave and soft hand, gives the fabric a natural and balanced appearance, combining functionality with decorative refinement. Designed for both decorative and high-performance use, **BOB** is ideal for drapery and blackout decoration, maintaining an elegant and controlled fall.

The colour palette features 14 shades inspired by natural and earthy tones, perfect for creating warm, essential and contemporary atmospheres.

Available in width 300/305 cm.

GLORY

GLORY is memory, participation and respect.

Not only victory, but the value of the journey, determination and moments that remain etched in collective memory. **GLORY** is a decorative curtain created on a linen-blend ground (91% PL – 9% LI), on which a print with embroidery effect is applied, elegantly reproducing the three-dimensionality of the final design. This technique gives the fabric depth and movement, while maintaining visual lightness and refinement. The weave allows light to filter through in a soft and natural way, making **GLORY** ideal for enhancing bright interiors, both modern and contemporary.

Available in 3 multicolour variants, in width 300/305 cm, lead-band finish. Produced on the same base fabric as the Tropea article.

GOLD

GOLD is the symbol of absolute excellence.

The highest achievement, born from sacrifice, determination and talent, destined to remain in history. The bouclé curtain **GOLD** is a furnishing element with a strong material presence, characterised by a rich and irregular surface created by curly yarns that generate an elegant three-dimensional effect. Its composition of 82% recycled PL and 18% PL expresses a conscious, contemporary and responsible beauty. Soft, textured and refined, **GOLD** places material at the centre of the space, adding depth and character to interiors.

The palette unfolds in 15 pastel shades, designed to enhance the texture with delicacy and luminosity.

Available in width 300/305 cm.

HOCKEY

HOCKEY is rhythm, energy and precision.

A fast-paced game made of continuous action and sudden changes, where every second matters. Inspired by one of the most intense and spectacular sports, **HOCKEY** features a corded polka-dot embroidery that adds movement and personality to the space. A refined and luminous curtain, created on our Bosa fabric in linen blend (65% LI – 35% PL), combining natural elegance with a strong decorative character. The small embroidered dots create an elegant play of texture, with a 16 cm repeat, rhythmically defining the surface with balance and dynamism.

Available in 5 colour variants, **HOCKEY** is suitable for both modern and classic interiors.

Available in width 320/325 cm.

ICE

ICE evokes the purity and silence of frozen matter, the strength held beneath an impeccable surface.

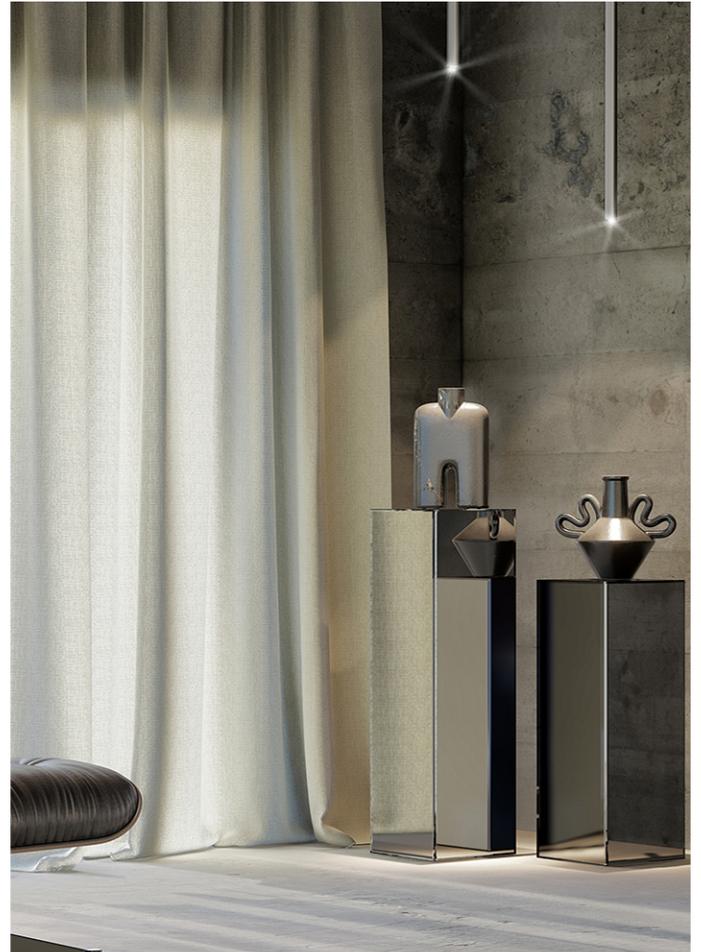

A fabric that interprets cold in a sophisticated and enveloping way. A decorative cashmere-effect fabric in 100% PL, **ICE** stands out for its compact and substantial structure, with a full, soft and enveloping hand. Its refined surface recalls the delicacy of natural cashmere, reinterpreting its aesthetic through a contemporary and technical language.

The colour range unfolds in 23 shades, designed to enhance the fabric's texture and bring depth, balance and timeless elegance to interiors.

ICE is conceived to dress space with discretion and character, transforming light into atmosphere.

Available in width 295/300 cm.

SKI

SKI is balance, fluidity and control.

A smooth gesture that moves through light, transforming it into motion and lightness. Inspired by one of the most iconic winter sports, **SKI** translates the emotion of the descent into a sheer curtain fabric in 100% PL. Its light and airy structure recalls the authentic look of linen through irregular weaves that add naturalness and refinement, without sacrificing practicality: the fabric does not require ironing, making it versatile and functional for everyday use. Designed to accompany light with discretion, **SKI** is ideal both as a main curtain and as a decorative sheer combined with more opaque draperies.

The colour palette develops in 8 neutral and natural tones, conceived to create harmonious, bright and contemporary interiors.

Available in width 295/300 cm.

SNOW

SNOW is energy, technique and spectacle. A balance between control and freedom, where material reflects light with intensity and precision. Inspired by the world of snowboarding, **SNOW** is a dense weave fabric with a silk-like effect, made of 83% PL and 17% VI. It stands out for its rich and luminous appearance, recalling traditional Oriental silks, reinterpreted in a contemporary key. The compact and slightly irregular weave provides strength, sheen and elegance, while maintaining a pleasantly silky feel to the touch. Available in 22 intense colours, **SNOW** comes in width 295/300 cm.

SPEED

SPEED is the expression of velocity: responsiveness, precision and absolute control. Every movement counts, every second makes a difference. A mesh-effect fabric in wool blend (45% PC 40% PL 15% WO), created through sophisticated weaves and processes that generate regular spaces between the threads, resulting in a light and dynamic structure. Wool, while preserving its natural softness and elasticity, is worked to achieve an airy three-dimensional quality, giving the fabric depth, movement and a contemporary aesthetic. **SPEED** interprets performance through textiles: a perfect balance between technique and refinement. The palette develops in 13 metallic-toned shades, designed to enhance light and emphasise the fabric's bold character. Available in width 300/305 cm.
